

Community Health Council

of Lebanon County

The Community Health Council of Lebanon County was established in 1994, bringing together stakeholders from across the community to discuss common health goals and collaborative opportunities.

We are a not-for-profit entity which coordinates efforts to improve the health and quality of life

of Lebanon County residents based on the results of various community needs assessments performed throughout the County.

The Council consists of over 25 committees, task forces, and events involving over 400 community volunteers.

Our Vision: A healthy, engaged, and thriving Lebanon County for everyone.

Our Mission:

Working together to develop and mobilize resources to enhance the health of Lebanon County.

Our Goals

- Community Health Council and partners align and collaborate around a shared agenda of health equity and access to care.
- The community values whole-person health as a fundamental right.
- Youth establish lifelong habits that promote a healthy lifestyle.
- Adults make choices toward a healthy existence.
- Older adults thrive in their communities
